

Dear Bernice,

Two years ago when faced with the decision to move my mother from Florida to New Jersey to be close to the family, I knew an assisted living facility with a more home-like environment would be the best place.

I am so glad we chose Whispering Knoll. The facility is beautiful and always very well kept. The entire staff and directors do an incredible job of creating a warm, caring and enriching environment for not only my mother, but our entire family. Their patience is unending and they always exhibit a positive and encouraging attitude when engaging the residents in activities.

I am so very grateful to the entire facility for providing a wonderful home for my mom and highly recommend Whispering Knoll to anyone with an elder in need of assisted living.
