Dear Whispering Knoll Staff Members,

My sister Kay Morris (room 113) has asked me to write this note for her and instructed me, in a rather strong voice, to "make it nice." Nice is not an adequate term when it comes to saying "thank you" to each and everyone of you for your professional care and even more, for your "loving care." I don't know how we would have gotten so far without you! Kay said, "Be sure they know how much I appreciate everything they do for me."

Ladies and gentlemen too, where it applies, you are remarkable—always cheerful, encouraging, with a sense of humor. You actually bring joy into everyday life!

Our hats are off to you (that is, they would be if we had any). Keep up the good work and again, "Thank you!"

Lovingly,

Kay Morris and family

P.S. This is not good-bye!
