Dear Berniece,

Thanks for forwarding my father's mail. . . it's curious, because literally the first thing I did after he died was to go to the Edison post office and file the forward mail form and it seemed to work for awhile. . . maybe they think he's just on a short vacation – a cruise! I'll re-check with the postal people.

I wanted to express our sincere thanks to you and your staff at Whispering Knoll. It was the perfect place for my dad to wind up his life, and I know he enjoyed being there very much. I can imagine how challenging it is for the staff to be pleasant and upbeat all the time in the face of residents' needs and demands, but you guys are doing a great job. Thanks for being kind to those who truly need it.

And please thank all the residents who befriended my father during those four months. He wasn't the type of person who was wildly emotive, but he definitely appreciated their camaraderie and concern.

Very best wishes,
